## CANTON'S NEW VICEEROY.

An interesting character sketch of H.E. Tsen Ch'un-hsuen is given by the Chengtu correspondent of the N. C. D. News, who writes on 22nd May:—

THE VICEEROY has left much to the regret of all good citizens. The Treasurer Chen has issued a proclamation which speaks eloquently of his ability to administer in both civil and military affairs and asserting that he will keep a firm grip on affairs; nevertheless affairs will not go well unless he has more push than when he led a force last year against the Boxers, and having been ordered to co-operate with two other commanders in surrounding a large band of Boxers, he sent a messenger to their leaders protesting pacific intentions and brotherly feelings, but he was ordered to march to a certain place, and would the Boxers kindly open their lines. This they did and of course escaped to continue their depredations for some months.

When it was known that Viceroy Tsen was to leave the Presbyterian missionaries sent to him a united letter of appreciation and a copy of the Empress Dowager's New Testament. To this letter the Viceroy sent the following reply:—

VICEEROY TSEN'S REPLY.

Yesterday I received and read a translation of the joint letter from the missionaries, male and female, of the English and American Missions. I am both ashamed and thankful. The contents of the letter were sincere and straightforward. I fear my virtue is only ordinary and I am not worthy of your praise. It is now more than eight months since I came to Szechuan, and yet I have barely suppressed the disaffection, and have in only a general way pacified the country. Besides this, I have scarcely made a beginning to all the reforms that are necessary, not to speak of completing any of them. This I regard as my own fault, but on receiving the praises of you good teachers from beyond the seas, I feel more than ever my unworthiness. Nevertheless I steal some pleasure from the thought that the people and the Churches at present are on very friendly terms. The officials of China are gradually acquiring a knowledge of the great principles of the religions of Europe and America, and the Churches are also labouring day and night in order to re-adjust their methods and to make known to the public their aims, in the propagation of religion, consequently Chinese and foreigners are coming more and more into cordial relations, and the country enjoys a lasting peace. This fills me with joy and hopefulness. But after all the province of Szechuan is an out of the way place and ignorant people are still numerous. My hope is that the teachers of both countries will widely spread the Gospel more than ever, that hatred may be banished and disputes dispelled, and that the influences of the Gospel may create boundless happiness for my people of China. And shall I be the only one to thank you for taking the initiative in this good work? Although I am leaving Szechuan my thoughts will still be with you, and moreover, it is not certain that we may not meet again. As I cannot reply to each individually, may I trouble you to convey these sentiments to your fellow-workers, and also my thanks for your kind present?

May the Gospel prosper.

I herewith present my card,

TSEN CH'UN-HSUEN.

CHINA LIGHT AND POWER COMPANY, LIMITED.

NOTICE is hereby given that an EXTRA-ORDINARY GENERAL MEETING of the CHINA LIGHT AND POWER COMPANY, LIMITED, will be held at the COMPANY'S OFFICES, No. 14, Des Voeux Road Central, Victoria, Hongkong, on SATURDAY, the 27th day of JUNE, 1903, at 11 in the FORE-NOON, when the subjoined Resolutions will be proposed, viz:—

1. "That the capital of the Company be reduced from \$500,000 (divided into 15,000 shares of \$30 each) to \$150,000 (divided into 5,000 shares of \$30 each) and that such reduction be effected by reducing the nominal amount of all the shares in the Company's capital from \$30 to \$10 per share."

2. "That after such reduction the capital of the Company be increased from \$150,000 (divided into 5,000 shares of \$30 each) to \$300,000 (divided into 10,000 shares of \$30 each) by the creation of 15,000 new shares of \$10 each to be offered and accepted to be allotted to the present shareholders of the Company in the ratio and proportion of one new share for every old share in the Company held by the respective shareholders thereof."

3. "That in consideration of the guarantee and undertaking now given by Messrs. Shewan, Tomes & Co. (the General Managers of the Company) and testified by their signature hereto (and to be further testified by the execution by the said Shewan, Tomes & Co. of a separate instrument of guarantee to be executed contemporaneously with the Debenture Trust Deed or Mortgage hereinafter referred to and to be held by the Trustees thereof to be appointed as hereinafter mentioned) that the dividend for the years 1902, 1903 and 1904 in respect of the new shares referred to in the second of the preceding resolutions shall not fall below the rate of 6 per centum per annum in each and every one of the said three years the said Shewan, Tomes & Co. as such General Managers as aforesaid be and they hereby are authorised to issue Debentures to the amount of not more than \$200,000 on the property of the Company to be secured by a duly executed Mortgage in trust by the Company to such persons as Trustees for and on behalf of the Debenture holders as the said Shewan, Tomes & Co. may by writing under their hand appoint. The said Debentures to be issued in the shape of Bonds for \$1,000 or \$500 each at the Debenture holders' option respectively but so that the aggregate amount in value of such Debentures taken together shall not exceed the sum of \$200,000. The Bonds for and in respect of the said Debentures may be issued at a discount not exceeding 25 per centum on the face value thereof but so that the holders respectively of such Debentures shall not be entitled to be repaid more than the face value thereof. The said Debentures to bear interest at the rate of 8 per cent. per annum to be computed from the date of actual issue to the respective holders thereof and to be repayable within 5 years from and after the date of such actual issue in manner following that is to say: No portion of the amount paid in respect of any of such Debentures shall be repayable during the first three years following the date of the actual issue thereof but upon the expiration of such period of three years there shall be repaid in respect of each Debenture to each and every holder thereof

(a) "One quarter of the amount paid in respect thereof within six calendar months following the expiration of the said period of three years;"

(b) "One quarter of the amount paid in respect thereof within twelve calendar months following the expiration of the said period of three years;"

(c) "One quarter of the amount paid in respect thereof within eighteen calendar months following the expiration of the said period of three years;"

(d) "One quarter of the amount paid in respect thereof within twenty-four calendar months following the expiration of the said period of three years."

Should the above Resolutions be duly passed they will be submitted for confirmation as Special Resolutions to a Second Extraordinary General Meeting which will be subsequently convened.

Dated this 15th day of June, 1903.

## WA HING LOONG STORE

At No. 55, Queen's Road Central,  
HONGKONG, CHINA.

There you will find all sorts of articles tastefully made by the best Chinese workmen and sold at the lowest prices; gold wares guaranteed 18 carats, and silver wares 90 per cent. touch. One of their recent masterpieces of art is a silver tree with a flock of birds of different species on and in all conceivable perches. It is designed to be the miniature of a Chinese aviary. It is a work of art, unsurpassed by any former make of its kind, and is exceedingly true to nature. It is indeed worth a visit.

BEFORE WE CAN use them, iron and gold must first be got out of the ore. The same principle applies to cod liver oil. Its virtues are not in its fatty matters; much less in its sickening taste and smell. No consumptive, or sufferer from any other wasting disease, was ever greatly benefited by the so called "plain" cod liver oil. The shock it gives to the nerves, the repulsion and disgust it excites in the stomach, the outrages it commits upon the senses of smell and taste, are enough to spoil any medicinal potency that may be in it for the majority of people. This—to say nothing about its being indigestible. Yet there has always been reason to believe that, among the elements which form cod liver oil, there existed curative properties of the highest value. But it was necessary to separate them from the nauseating waste material with which they were combined. This was successfully accomplished in

## WAMPOLE'S PREPARATION

and in this effective remedy, made palatable as honey, we have the very heart and soul of Pure Cod Liver Oil, combined with the Comp. Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. These constitute a tissue-builder, a blood purifier, a health renewer beyond comparison. Disease yields to it with a completeness and rapidity which satonishes medical men quite as much as it delights their patients. In all wasting conditions, Scrofula and Blood Disorders, La Grippe, Chronic Bronchitis, Pulmonary Affections, etc., it never fails to relieve and cure. Dr. Louis W. Bishop says: "I take pleasure in saying I have found it a most efficient preparation, embodying all of the medicinal properties of a pure cod liver oil in a most palatable form." It stands in the front rank in the march of medicine. No slow or doubtful action. Effective from the first dose. "You cannot be disappointed in it." Sold by chemists here and everywhere and A. S. We shall have a Souvenir Day soon, but you will have to pay us a personal visit as no chits will go. LeMunyon.—*Adv.*

SINGAPORE being for various reasons the great entrepot of the East for pearls, it is worthy of note that prices are apparently on the rise. A pearl, which about ten years ago could have been purchased for \$250 will now sell at from \$500 to \$700 so that it would seem that they are now a capital investment, especially as there is reason to fear that the largest pearl fisheries are rapidly becoming exhausted. It may be noted (says the *Straits Times*), that the largest pearl in existence, and which is said to weigh over three guineas, is in the South Kensington Museum, and that one pearl necklace has recently been offered for sale at £25,000.

### THE CRIMINAL SESSIONS.

OPENED THIS MORNING.

The Acting Chief Justice, Sir Henry S. Berkeley, took his seat in the Supreme Court at half past ten this morning when the June Criminal Sessions were commenced with eighteen prisoners, concerned in nine cases, awaiting trial. The indictments were for larceny, forgery, disobeying order of banishment, burglary, receiving stolen goods, robbery, and a charge under the Women and Girls' Protection Ordinance. The most interesting case on the calendar was that of R. C. Moffitt indicted for larceny, the report of which is printed in another column.

DISCHARGED.

Mak Tai Yam, a dumb man, was placed in the dock, and the Acting Attorney General said he was charged with a prisoner indicted with another offence. He had carefully considered the evidence and thought he would not be justified in placing the man on his trial.

No evidence was offered and prisoner was discharged.

ALLEGED LARCENY AND FORGERY.  
With regard to the charge of larceny and forgery against Tong Fui, the Acting Attorney General said the case was provisionally fixed to come on for hearing on Monday week, after the return of Sir William Goodman.

BURGLARY.

Wong Yan and Chan Fai were indicted on three counts charging them with burglary, larceny and receiving stolen goods. They pleaded not guilty to all counts, excepting with regard to receiving the stolen property which the first prisoner admitted. The following jury was sworn: Messrs. R. J. Macgowan (foreman), W. B. Boyce, E. Liders, W. A. H. Otto, H. M. Webb, A. McColl, and E. I. Ellis.

The Acting Attorney General stated that prisoners were two of a gang who committed burglary at a house in Kung Chung, New Territory, on the night of the 18th May last. Some time after eleven o'clock one of the inmates of the house heard suspicious sounds and raised an alarm; and the wife of a certain Ip Tak found the second prisoner in her room. He struck a match, and seeing her there caught hold of her and told her to be silent or he would do something to her. He, however, remained there but a short time, and meanwhile the first prisoner was seen to take down a clock of small value from the wall. The woman shouted out and aroused her husband and prisoners decamped. The matter was reported to the police at Yau-mati, and in consequence of information received they went at 2.30 the next morning to a coolie house in Yau-mati and found the clock wrapped up in a wet coat in the first prisoner's cubicle. The clock, which was going when hanging in the wall, had stopped at 11.19, the time when it was removed. Fourteen men were placed in a row, and the woman from the house identified the two prisoners.

Evidence was heard, and prisoners were found guilty on the first count and sentenced to three years' imprisonment with hard labour, his Lordship observing that they had been found guilty of a very serious offence.

RETURNING FROM BANISHMENT.  
On the 8th December, 1901, Wong On was banished from the Colony, but, according to his statement, he did not know for how long so he returned to Hongkong. He was sent to prison for six months with hard labour, and will then be banished from the Colony for five years.

BURGLARY AND ROBBERY WITH VIOLENCE.  
Fung Chun, Chan Him and Kung Cheung, three unkempt and determined looking individuals, were indicted for burglary and robbery, with violence at the Coffee Plantation, East Point, on the 19th ult.

They pleaded not guilty, and the following jury was impanelled to try the case. Messrs. W. H. Purcell (foreman), K. E. H. Pollock, C. C. Pedersen, H. Ruttonjee, C. Koenig, P. H. Murray, and W. C. P. Stoppa.

ST. Morgan Phillips, who prosecuted on behalf of the Crown, pointed out that in the early morning of the 19th May, the wife of Fung Cheung, a vegetable gardener, living near the Coffee Plantation, was aroused, and found three or four men in her bedroom. She called out "Thieves," and the men went in the room of her husband where one of them caught hold of him by the throat and held him while another pulled a jade-stone bangle from off his arm. Fung Cheung struggled with the man grasping him by the throat and got hold of his queue, and the other men went away. An alarm was given and the police arrived on the scene and took Fung Chun into custody. The case against the other men mainly rested on their statements at the Magistrate's court where they admitted having been on the premises. They said they were invited by the first prisoner to go there to make money.

After evidence had been heard the men were found guilty and sent to prison for three years and six months, his Lordship ordering them to receive 20 strokes of the birch three days before their liberation from jail.

FORGERY.

Li King Cho and Chan Fung Yau pleaded not guilty to indictments charging them with uttering a forged request for the delivery of 35 bags of sugar, purported to be chopped by Messrs. Bismark & Co. and with endeavouring to obtain delivery of the goods.

The following jury was sworn: Messrs. C. Olderp, F. E. Shuster, A. Beattie, A. McColl, W. C. D. Turner, R. J. Macgowan, and E. Liders.

The Acting Attorney General explained that on the morning of the 30th May the first prisoner went to a shop in Wing Lok Street and announced himself as an employee of Messrs. Bismark & Co., and arranged, nominally, on behalf of that firm, for the sale of 50 bags of sugar. At noon both prisoners went to the shop and while the first remained outside the second went in and produced a request

for the immediate delivery of 35 bags of the sugar. The firm, however, were suspicious and made inquiries of Messrs. Bismark & Co. from whom they learned that no such request had been issued by them. The second prisoner was thereupon detained, and a foki sent after the other prisoner. Counsel said that the evidence he intended calling would show that the delivery order was forged and that both prisoners represented themselves as employees of Messrs. Bismark & Co. in order to pass off the goods.

After hearing evidence the jury found the prisoners guilty, as libelled.

His Lordship passed sentence of three years' hard labour upon each.

The Court adjourned till to-morrow at 10.30 a.m.

### MOFFITT PLEADS GUILTY.

THREE YEARS' HARD LABOUR.

At the Criminal Sessions this morning Robert Percy Moffitt, ex-secretary of the Hongkong Dairy Farm Company, Limited, was placed in the dock to answer three indictments charging him with feloniously and fraudulently embezzling and stealing certain sums of money, to wit, \$2,075, \$1,632.98, and \$2,109.42 received by him in 1902 as secretary of the Hongkong Dairy Farm Co., Ltd.

The Hon. E. H. Sharp, K.C., (Acting Attorney-General) instructed by Mr. F. B. L. Bowley, (Crown Solicitor) prosecuted on behalf of the Crown, and the prisoner, who pleaded guilty, was not defended.

Addressing his Lordship, the Acting Attorney General said it was not his wish on behalf of the Crown to press the case against the prisoner harshly, but he thought he would be omitting his duty if he did not indicate to his Lordship some of the facts of the case. It was specified in the agreement that prisoner's duty as secretary of the Dairy Farm Company, Limited, was to keep the books and receive all moneys which he had to pay into the bank on the same day. The system of the company as to the customers' accounts was as follows: A shroff was engaged by the company to actually collect the customers' accounts, and he kept a book of the moneys so collected. From time to time, after two or three days, when he had a large amount in his hands he gave it over to the secretary who initialled the book.

His Lordship:—The plea of guilty renders it unnecessary to relate the facts to me except with a desire—

The Acting Attorney General—I don't desire to press the charge harshly.

His Lordship:—What is the amount?

The Acting Attorney General:—The total defalcation is over \$11,000. We have selected three items, amounting to \$5,000 or \$6,000. I think it my duty to indicate to your Lordship, in view of the prisoner's position of trust and the magnitude of the defalcations that the case is one of exceptional gravity. The three items in the indictment amount to \$5,800 out of a total sum, as shown by the evidence, of \$11,000. The prisoner was secretary of the Dairy Farm Company, Limited, and as the evidence shows very large sums of money were placed in his hands. In point of fact there was no check upon him except the annual audit. Apart from that there was no practical check upon him and he was trusted implicitly by the company.

The Registrar (to prisoner):—Do you wish to say anything to the Court in mitigation of the sentence about to be passed upon you? If so you are at liberty to address the Court.

The Prisoner:—I would ask your Lordship, in passing sentence, to kindly take into consideration that I have already been six months in prison—five months in America and a month here. I have nothing further to say, my Lord.

His Lordship:—What was prisoner's salary? The Acting Attorney General:—The prisoner's position under the agreement was this, my Lord. He had \$100 a month, and was allowed private practice. That is to say, he could do other work than as Secretary of the Dairy Farm Company. He had \$100 a month, quarters and allowed private practice.

His Lordship (addressing the prisoner):—Prisoner, the Court is very sorry to see a man of your position and respectability occupying the position you do to-day. Your offence is a very serious one, because it appears that you were placed in a position of trust and that you seriously abused that position. It is stated by the Attorney General that very large sums of money passed through your hands, and having regard to that fact I cannot but feel that your salary was one much smaller than should be paid to men through whose hands very large sums of money pass. But that is no excuse in law, nor can I take it into consideration, but undoubtedly employers who pay small salaries to persons through whose hands large sums of money pass open themselves to risk of temptation on the part of the employee. I say again that that is no excuse in law; but the fact remains, as I have stated, I will take into consideration the fact that you should ask me to consider that you have been imprisoned for several months, but I must mark your offence with a severe punishment because of its gravity—abuse of trust by a man in possession of education as you appear to be. The sentence of the Court is that you be imprisoned with hard labour for three years, counting in that the time you have been in prison. That will be two years and six months.

The Acting Attorney General:—The prisoner has not actually been in prison.

His Lordship:—For two years and six months is the sentence of the Court.

### WATER POLO.

A Water Polo match between teams representing the Victoria Recreation Club and Royal Engineers will be played to-morrow afternoon at the V.R.C. enclosure commencing at 5.30 p.m. sharp.

THE Beer to drink in the tropics is the Beer  
made in the tropics—SAN MIGUEL.

### SANITARY BOARD.

A meeting of the Sanitary Board was held this afternoon in the Board Room. Present:—The President (Hon. Dr. J. M. Atkinson, P.C.M.O.), Vice-President (Hon. W. Chatham, P.C.M.O.), Capt. Lyons, Acting C.S.P., Mr. H. E. Pollock, K.C., Col. Webb, R.A.M.C., Mr. Ahmet Rumjahn, Mr. Fung Wa Chun, Dr. Pearce, Acting M.O.H., and Mr. Bullen, Assistant Secretary.

Sanitary Board Office,  
29th April, 1903.

Sir,—I have the honour by direction of the President to inquire whether information can be obtained either through the Harbour Office, the Police Department or the principal local Steamship Companies as to the number of Chinese who are now leaving the Colony daily and also the number of steamers and steam launches leaving here for Canton or Macao.

The President is informed that there are many leaving on account of plague and that people are dying daily of this disease en route between Hongkong and Canton. The danger to the community lies in the fact that the Board has practically no knowledge of the houses, necessarily infected, whence these people come.

With regard to this I would refer you to Professor Simpson's recommendation at paragraph 10 of his Second Memorandum of last year:—"Personally I am further of opinion that the Canton steamers—Native and European—should, during the first six months of the year, carry at their companies' own expense a medical man who might be a Chinese graduate, educated at the Hongkong College of Medicine for Chinese, to examine the Chinese passengers en route and report to the Boarding Officers."

The Board does not wish to prevent the people leaving the Colony, but to ascertain the houses, where they have been residing.

It might be possible for the Police to assist the Board in this respect.—I have, &c.

G. A. WOODCOCK,  
Secretary.

In reply to a minute from the Colonial Secretary, the Harbour Master reported as follows:—

There are no steam launches running regularly between here and Canton. There has been no special increase observable in the occasional launches, or in those to Macao.

2. To Canton:—5 river steamers.

3. Macao:—3 river steamers; 1 launch.

3. I think "A" [i.e., the recommendation of Prof. Simpson] is desirable, but if carried out I wish to point out that the Boarding Officers are not the persons to report to; it should be to the Police and Medical Officer of the Port.

On the 5th inst., the Colonial Secretary wrote to the Hon. Principal Civil Medical Officer that "Government has decided not to oblige the River steamers and Macao steamer to carry doctors at it is not clear what good would result thereby."

PLAGUE IN FORMOSA.  
A paragraph appearing in the *Hongkong Telegraph* of the 12th ult. relating to plague in the island of Formosa led to an inquiry being made by Government with the result that the following report was received from H.B.M.'s Acting Consul, Tainan:—

TAINAN, 26th May, 1903.

On the 15th instant, I had the honour to receive the following telegram from you:—

"Forward special report as soon as possible on bubonic plague in Formosa especially Tainan, Anping," to which I replied on the same day by telegram to the following effect:—

"No cases of plague in Tainan or Anping this year. A few cases in other districts in South Formosa. Full report by post."

I have now the honour to send you the following return of cases of, and deaths from pest (bubonic plague) in South Formosa during the present year:—

District.	Date.	No. of Cases.	Deaths.
Kwantiebyo, Jan. 1 to Apr. 30	13	8	
Kogi, " " May 15	159	102	
Eutoko, " " " "	70	44	

The Kogi district where the cases of pest have occurred is about 50 miles to the North of Tainan city; Eutoko lies about half way between Tainan and Kogi, while the district of Kwantiebyo where a few sporadic cases of plague have occurred this year lies about 13 miles to the south-east of the city of Tainan. The districts to the north of Kogi are comprised in the Consular district of Tamsui.

As stated in my telegram of the 15th instant, there have been no cases of pest in either Tainan or Anping during the present year nor have there been any cases during the year in the more southern part of Takow or the city of Hozan. As regards Tainan it is satisfactory to note that, doubtless, owing to the widening of the principal thoroughfares, the constructions of open drains and the steps taken by the authorities in the matter of inoculation against plague and the destruction of rats (the sum of five cents was given for each rat taken to the police authorities), no cases of bubonic plague occurred since the end of 1901.

It was decided that no action was necessary.

CLOSING OF CHINESE THEATRES.

In reply to the Sanitary Board letter of the 8th inst., the Colonial Secretary wrote to the Board as follows on the 10th June:—

"I am directed to inform you that, in view of the divergence of opinion on the Board itself as evidenced by the voting at its last meeting, of the experience of the past and of the fact that persons attending the Chinese theatres would probably be less crowded together than if they remained in their own houses, the Government is not prepared to act on the recommendation of a majority of the Sanitary Board that the Chinese theatres should be closed during the prevalence of plague."

made in the tropics—SAN MIGUEL.

be closed during the prevalence of plague." Mr. Lau Chu Pak minutes:—In view of the plague season drawing to an end, this question might, now, be allowed to drop.

LIME-WASH, NOT CHALK AND WATER.

The President, pursuant to notice, moved:—That whereas the Board have found it necessary to take certain proceedings against people using chalk and water instead of lime-wash, the Board obtain authority to insert an advertisement in the local papers to the effect that chalk and water cannot be accepted in lieu of lime-wash, but that there is no objection to colouring matter being added to it.

Mr. Pollock seconded.

Carried.

A full report will appear in to-morrow's issue.

### LEGISLATIVE COUNCIL.

A meeting of the Legislative Council will be held on Monday, 22nd inst., at 3 p.m., when the following business will be transacted:—

1. Final Minutes. (Nos. 14 to 23).
2. Report of the Finance Committee. (No. 3).
3. Report of the Public Works Committee. (No. 1).
4. Resolution by the Hon. Colonial Treasurer.—Resolved that the percentage on the valuation of tenements, payable as rates, in the village of Mong-kok-tai be altered from 10½ to 12½ per cent.

ORDERS OF THE DAY.  
First reading of a Bill entitled An Ordinance to amend The New Territories Rent Recovery Ordinance.

First reading of a Bill entitled An Ordinance to amend The Holidays Ordinance, 1875, (No. 6 of 1875).

First reading of a Bill entitled An Ordinance to give effect to an Order in Council made by His Majesty the King on the 12th day of March, 1903, relating to the marriages of British subjects in Foreign countries.

First reading of a Bill entitled An Ordinance to authorise and regulate the establishment and use of installations for the purpose of wireless telegraphy.

First reading of a Bill entitled An Ordinance to amend The Malay States (Fugitive Criminals) Surrender Ordinance, 1903.

Second reading of the Bill entitled An Ordinance to provide for the more effectual prevention of frauds on owners and charterers of ships by stowaways, their aiders and abettors.

R. F. JOHNSTON,  
Acting Clerk of Councils.

A meeting of the Finance Committee will be held immediately after the Council.

### ALLEGED BRIBERY.

Niels August Johnson, assistant Inspector of Markets, and Robert Gardiner McEwen, Inspector of Markets, appeared at the Magistrate's court this morning, in answer to summonses against them for offences under the Bribery Ordinance, No. 3 of 1898.

Johnson is charged for "that he on the 24th day of December, 1901, then being a public servant, accepted the sum of \$100 from Ip Chun, Wo Kam, and Lam Hing Shan with a view to influence his conduct as such public servant contrary to Ordinance No. 3 of 1898." A similar charge is laid against McEwen for accepting the sum of \$120 from Chan Wong and the sum of \$100 from Ip Chun, Wo Kam, and Lam Hing Shan, also with a view to influence his conduct as a public servant contrary to Ordinance No. 3 of 1898. Pang Chin Ngok, manager of the Hop Wo Chan, merchants, of 235, Des Voeux Road West, for receiving the sum of \$200, which was offered by him to McEwen; and Tang Ah Tso, market coolie, of Wanchai, for receiving the sum of \$20 and which he also is alleged to have given to McEwen.

With the exception of Pang Chin Ngok, who admitted the charge against him, all the defendants pleaded not guilty. Inspector McEwen is defended by Mr. John Hastings, solicitor, (of Messrs. Deacon and Hastings). The hearing of the case was adjourned to Thursday, the 25th inst., at 10 a.m., bail of \$500 each being allowed.

### THE PLAGUE.

During the twenty-four hours ended at noon to-day 7 further cases of bubonic plague, making, according to the official return, 1,209 since January 1

## Mr. Chamberlain's Fiscal Policy.

The Right Hon. Goschen has raised a discussion in the Lords on Mr. Chamberlain's policy. He dwelt on the danger of tying our hands, by an agreement with the Colonies involving a tax on food, and said that Mr. Chamberlain's retaliatory policy would land us in protection with all its dangers. The scheme was a gamble with the food of the people.

Reuter's Agency understands that the Indian Camel Corps leaving for Somaliland will be employed in transport to Bohotle and Berbera pending the construction of a light railway which will take seven months to complete; in the meanwhile the British attitude will be mainly defensive.

## Railway Concessions in China.

Lord Lansdowne in the House of Lords said that Great Britain had serious cause for complaint at the manner in which China has dealt with applications for railway concessions and that he would be obliged to remonstrate strongly. Sir Ernest Satow was returning to China with full instructions to energetically support the views of the Government.

## THE ADMIRALTY DOCK.

It will be reassuring, says the *L. & C. Express*, to the petitioners who have taken up the question of the possible removal of the present dockyard site in Hongkong to know that the matter is by no means pigeon-holed at the Colonial Office. The matter is really being dealt with as expeditiously as circumstances permit, but when we remember that three Government Departments are interested it will be understood that, even if red tape is unceremoniously brushed aside, the matter cannot be dealt with off-hand. The Admiralty, the War Office, and the Colonial Office are all concerned, and though despatch may be used the discussions and correspondence between these departments must necessarily take time, especially when we consider the great importance of the question.

## OUR OVER-SEA TRADE.

The trade returns for the month of April bear witness to the continued satisfactory character of our over-sea trade. It is true that there is an apparent decline of about £2,000,000 in imports and £350,000 in exports, as compared with the corresponding month of last year; but this decline is more than accounted for by the fact that Easter fell in April this year, and in March the year before. The real test of the progress of our over-sea trade is furnished by the figures for the first four months of the year taken together. These show a thoroughly satisfactory increase of £4,630,000 in export, as compared with the corresponding period of 1902. In imports, on the other hand, there is an appreciable decline, which might be disquieting if the cause were less obvious. The decline, as the detailed figures show, is due to the holding back of dutiable import on the chance of a reduction of duties in the Budget. Turning from these figures, which give the approximate values of the goods imported and exported, to the shipping figures, which give the tonnage entered and cleared, we find equally satisfactory evidence of steady growth. There is a satisfactory increase both in inward cargoes and in outward cargoes, and it is specially noticeable that the bulk of the increase in each case is in British ships.

## THE RUSSIAN FLEET IN THE FAR EAST.

Serious information has been received in well-informed quarters, remarks the *Manchester Dispatch*, as to the meaning of the extraordinary reinforcement of the Russian fleet in the Far East, more especially as regards torpedo-boat destroyers. Before the war that seems to be impending between Japan and Russia breaks out the rivals will maneuver for the control of the strategic position in Korea. Japan has already set the example of the destruction of troopships in time of peace. Hostilities began between China and Japan on July 25th, 1894, by the destruction of the *Kowshing*, a British dispatch boat conveying Chinese troops. The vessel was sunk off Azan. The Chinese declaration of war was dated August 4 ten days later.

Taking a leaf out of the Japanese book, the Russians contemplate preventing Japan from the military occupation of Korea. Russia, on the other hand, is able to increase Russian influence in Korea without attracting attention, but the situation is already strained to breaking point. Much turn on the control of the island of Tsushima, which lies midway in the channel between Korea and Japan. In the event of Japan being defeated by Russia this island would be demanded by Russia under the conditions of peace. It is only 50 miles west of Shimonski, but the nearest point of the Korean coast is only 48 miles distant. The island was recently inspected by the British naval authorities.

## A STORY OF JAPANESE PLUCK.

References in plenty were made to Japan at the annual dinner of the Navy League, for Viscount Hayashi and several of his countrymen and countrywomen were present to mark the community of naval interests between us and "our only ally." Mr. Robert Yerburgh, M.P., told a good story illustrating the pluck and endurance of the Japanese sailor. Some months ago a Japanese destroyer went ashore at a lonely spot on the Shantung Peninsula. The lieutenant-commander and crew saved themselves in one of the destroyer's boats, and after enduring the horrors of a voyage during which they tasted neither food nor drink for thirty-six hours managed to make Weihaiwei. Immediately on entering harbour the Japanese lieutenant boarded the British flagship and asked that assistance might be given him in refloating his little vessel. Having said this he fell down in a faint. Exposure and hunger had been too much for him. Immediately he recovered consciousness the lieutenant asked what steps were being taken to refloat the destroyer. He was informed that a gub at was at that moment on the point of starting for the scene of the wreck. "What!" he exclaimed, "The gunboat is starting and I am not in her! Please send me aboard at once!" If that is the spirit which animates the Japanese Navy, says the *Manchester Dispatch*, Englishmen need have little fear as to the quality of the assistance their ally will afford them in the future struggle for the mastery of the Pacific.

## GERMAN RAILWAY MATERIAL IN SIAM.

An article on Siamese railways and Anglon German rivalry, contained in the issue of the *Deutsche Colonist* of May 9th gives an interesting and instructive account of the fashion in which German agents, supported by the Imperial Government, succeeded in ousting English enterprise and securing for Germany a practical monopoly in the supply of railway material for Siam. The story, which goes back to 1887, shows that the earliest promoter of railways in Siam was the English Governor of the Straits, Sir Andrew Clarke, who obtained a line from Bangkok to Chiang-mai. But no sooner had the survey begun than the German firm of Krupp sent a special agent to put spokes in the wheels of the English contractors and eventually succeeded in getting the Siamese Government to withdraw the work from them. This involved a long struggle, in which the English Foreign Office had to intervene for the protection of British interests. The final result was a German monopoly and the firm establishment of German control over this branch of enterprise in Siam, so that, according to the article in the *Deutsche Colonist*, "the real general manager of the railways is the German Minister, who is, however, kept carefully in the background."

## KANG YU WEI AND THE EMPEROR.

The London correspondent of the *Birmingham Post* writes an article on the famous Chinese reformer and friend of the Emperor, Kang Yu Wei. In the course of his remarks he observes:—It is doubtless true that Kang is leaving or has left India, but this is probably for the purpose of going to the United States, where his daughter and niece (who are said to be his only surviving relatives) have recently gone from Hongkong. The young ladies, by the way, spent some time in Japan, seeing the chief political leaders there and describing the programme of the Reform party in China. A public-spirited British merchant in China has supported them since Kang's flight in 1898, and their journey to the United States is said to have for its object the study of methods of administration. Kang himself was deprived of all his property, and has since lived by the aid of some of his wealthy followers in Canton.

As to the position of the Emperor, the latest information from Peking is that he has totally ceased to take any part in the government since 1898, but that the relations between him and the Empress Dowager have improved, and are now very cordial, because of his abstention from interference in the administration. He seems to have fallen into a lethargic state, in which he takes little interest in anything, and this is probably due to his weak constitution and to the natural operation of the kidney disorder from which the two foreign doctors who examined him a few years ago found him suffering. That the Empress Dowager should ever invite Kang back to China except to kill him is wholly inconceivable. He did her the deadliest injury and committed the unpardonable sin against her by the allegations he made against her in the pamphlet in Chinese and English which he published to the world just after his flight, and his accusations were directed not only against her but against the most important persons about her—the all-powerful eunuch Lien, the late Yung Lu, the Viceroy Yuen Shi Kai, and others—so that the Empress herself and all her chief supporters in North China will have to disappear before Kang can return in safety to China. When he resided for a time in Singapore he had to be guarded by the police against assassination, and his life is probably still in danger wherever a Chinese community is to be found.

## PHILIPPINE TOBACCO.

The future of the tobacco-culture in these islands looks very problematical, says the *Manila Times*. The want of carabao and the little profit planters find for their exertions (on account of the low prices in 1901 and 1902) do not favour an improvement of circumstances, but rather tend to an impairment of the present conditions. In order to produce good tobacco, the soil must be frequently and thoroughly ploughed; if through lack of draught animals this cannot be done and prices of tobacco do not considerably increase, the planters will in all probabilities devote themselves to the cultivation of other commodities, to the disadvantage of the tobacco culture.

Manila manufacturers are almost all without stocks, as owing to the existing tightness of the money market they have been buying from hand to mouth; only a few large concerns dispose of sufficient tobacco so as not to run short. If the prices are still kept on the former low level, this has to be ascribed to the circumstance that money is tight, preventing many from covering their requirements in time.

## PROFITS OF GERMAN INDUSTRIES IN 1902.

The American State Department has issued a consular report showing the dividends paid by some of the principal industrial undertakings in Germany during 1902 as compared with 1901; most of the industries show a falling-off in profits. The textile line and the porcelain and glass industry show some improvement, while the chemical industry almost holds its own, and upon the whole makes a favourable showing. The average dividend paid by stock companies in the more important branches of manufacturing in 1901 was 7.29 per cent. In 1902 the same industries paid an average dividend of 6.9 per cent., or a falling off of 1.29 per cent. The following table shows the average dividends paid in 1902 and 1901 by some of the principal industries carried on by stock companies:—

Description.	1902.	1901.
Porcelain and glass.....	12.98	12.93
Chemical manufacture.....	10.39	10.43
Mining and blast furnace.....	7.73	9.66
Sugar manufacture.....	7.64	10.88
Brewing business.....	8.86	9.40
Textile industry.....	4.69	2.91
Machine manufacture.....	4.77	6.13
Electrical industry.....	4.13	5.92
Cement industry.....	4.51	5.24
Paper industry.....	1.87	8.76
Milling industry.....	1.46	3.09

It is generally believed that the turning point in the business depression in Germany has been reached, if not passed. Many corporations which have fallen into financial difficulties have been reorganised and put once more upon a stable foundation. American orders have been instrumental in reducing the surplus stock of the iron and steel companies. Building enterprises are being undertaken, and there is a demand for construction material. The number of applicants for labour at the Government employment offices has decreased. The passage of the new tariff law has removed an element of uncertainty, and, with the new commercial treaties which are being negotiated, the impression prevails that business will once more assume a normal condition.—*Japan Mail*.

## THE CHINESE GOVERNMENT CONFERRING HONOURS ON FOREIGNERS.

H.E. Wu, the acting Governor of Shansi, memorialised the Throne last month that the following honours be conferred in consideration of the generous and enlightened services of the Protestant missionaries in the settlement of the Boxer troubles in Shansi, for not exacting full and deserved indemnities for the heavy losses of life and property sustained by them, and for using what the Chinese themselves considered a moderate fine for the establishment of a University for Western learning there, viz., to:—

Rev. Mait Duncan, M.A., of the 2nd rank.	ditto.
Mr. D. F. Hoar, M.A., of the 3rd rank.	ditto.
Dr. E. H. Edwards, of the 3rd rank.	ditto.
Dr. Atwood, of the 3rd rank.	ditto.

The memorial was approved by the Throne.

## AMERICA IN THE PACIFIC.

EXPANSION, PROTECTION, DEVELOPMENT.

The most important speech delivered by President Roosevelt while in San Francisco was that made at the Mechanics' Pavilion on May 13th. His subject was—Expansion and the development and protection of the country's newly-acquired possessions in the Pacific, together with his advocacy of a greater navy. It made his discourse of particular interest to Californians, and he aroused his auditors to a high pitch of enthusiasm. The *Los Angeles Times* says it was a mighty gathering that listened to the President M. H. de Young, president of the Citizens' Reception Committee, opened the meeting, and Mayor Schmitz formally introduced the President to the people of San Francisco. It was some minutes before the cheering subsided, and the President was able to make himself heard. He said:—

Before I saw the Pacific Slope I was an expansionist, and after having seen it, I fail to see how any man confident of his country's greatness and glad that his country should challenge with proud confidence our mighty future, can be anything but an expansionist. In the century that is opening, the commerce and the command of the Pacific will be factors of incalculable moment in the history of the world.

Now, in our day, the greatest of all the oceans, of all the seas, and the last to be used on a large scale by civilized man, bids fair to become in its turn the first in point of importance.

Our mighty republic has stretched across the Pacific, and now, in California, Oregon and Washington, in Alaska and Hawaii and the Philippines, holds an extent of coast line which makes it of necessity a power of the first class on the Pacific. The extension in the area of our domain has been immense, the extension in the area of our influence even greater. America's geographical position on the Pacific is such as to insure our peaceful domination of its waters in the future, if only we grasp with sufficient resolution the advantages of this position. We are taking long strides in this direction; witness the cables we are laying down, and the great steamship lines we are starting—steamship lines, some of whose vessels are larger than any freight carriers the world has yet seen. We have taken the first steps toward digging an Isthmian canal, to be under our own control, a canal which will make our Atlantic and Pacific Coast lines to all intents and purposes continuous, and will add immensely alike to our commercial and our military and naval strengths. The inevitable march of events gave us the control of the Philippine Islands at a time so opportune that it may without irreverence be called providential. Unless we show ourselves weak, unless we show ourselves degenerate sons of the sirens from whose loins we sprang, we must go on with the work that we have begun. I earnestly hope that this work will always be peaceful in character. We infinitely desire peace, and the surest way to obtain it is to show that we are not afraid of war.

We should deal in a spirit of fairness and justice with all weaker nations, and we should show to the strongest that we are able to maintain our rights. Such showing cannot be made by bluster, for bluster merely invites contempt. Let us speak courteously, deal fairly and keep ourselves armed and ready. If we do these things, we can count on the peace that comes only to the just man armed, to the just man who neither fears nor inflicts wrong. We must keep on building and maintaining a thoroughly efficient navy, with plenty of guns and formidable ships; with an ample supply of officers and men, and with these officers and men trained in the most thorough way to the best possible performance of their duty. Only thus can we assure our position in the world at large, and in particular our position here on the Pacific.

It behoves us all, men of lofty spirit who are proud to belong to a mighty nation, to see to it that we fit ourselves to take and to keep a great position in the world, for our proper place is with the expanding nations and the nations that dare to be great; that accept with confidence a place of leadership in the world. All our people should take this position, but especially you of California, for much of our expansion must so through the Golden Gate, and the States of the Pacific Slope must inevitably be those which will be most benefited by and take the lead in the growth of American influence along the coasts and in the islands of that mighty ocean where east and west finally become one. My countrymen, I believe in you with all my heart, and I am proud that it has been granted me to be a citizen in a nation of such glorious opportunities and with the wisdom, the hardihood and the courage to rise level to its opportunities.

## PLAIN SPEAKING ON FAR EASTERN SITUATION.

For a bit of plain speaking on the political situation in the Far East commend us to a declaration made by certain Russian naval officers at Colombo to the officers of H.M.S. *Pique*, lately relieved here on her homeward way by H.M.S. *Nirius*. A representative of a Ceylon paper who visited the *Pique* gives an account in his journal of the news brought by the *Pique* from the Far East. This significant passage appears therein, says the *S. F. Press*:—

As regards the recent action of Russia in China, though the officer did not regard the alarm as exaggerated, he thought there was no need for fear now. At the same time he was not at all sure that further complications were not near at hand. "At Singapore," he said, "we returned a call to a second-class Russian cruiser—less tonnage than the *Pique*, but double the size of target—and we mentioned in a casual way that a lot of new Russian ships seemed to be coming out; and the Russian officers told us point blank that they were going to have war with Japan—which means with England as well. It is not out of the mouths of statesmen in Europe that the real bed-rock truth comes out. Any diplomatic quibble will do to check off a Parliamentary question. But it is from the men who will have to run the business in war that the truth will be got, if they are taken in a communicative mood at a happy moment. And the Ward room at a Russian cruiser, after lunch, is a Palace of Truth compared to any Foreign Chancellery on the Continent."

## CABINET DIFFERENCES.

THE COMING CRISIS.

Rumours regarding differences in the Cabinet are easily put in circulation and very difficult to trace to an authoritative source. The stories which are current just now regarding divisions of opinion among Ministers may not deserve much attention, but, at the same time, they are current in political circles, in which they receive a considerable amount of credit. Cabinet secrets are very closely kept, observes the *Liverpool Post*, and the stories are probably due to the attitude of Mr. Chamberlain as much as to anything more definite. The story is that serious differences of opinion exist in the Government with regard to the Irish Land Bill, and that it was with great difficulty that the Colonial Secretary could be brought to give even a passive assent to the bill. The corn duty is another matter on which it is said a division of opinion exists among Ministers. In fact, the report is that the battle over that question is not yet settled, and this, perhaps, explains why the Education Bill, and not the finance bill, is to be taken on Monday. It is a fact that the other night a leading member of the Opposition said to a member of the Opposition: "When are you going to turn our wretched Government out?" When Ministers themselves begin to talk in this despairing tone, it is evident that a crisis cannot be long deferred. Mr. Chamberlain has been ostentatiously absent during the discussions on the London Education Bill, the Irish Land Bill, and on the Budget, and if the Government weathers the session it will be almost entirely owing to the Irish vote.
